Testimonials:

Anna was very instrumental in planning and executing summer events for the youth ministry at IES. She also developed and led in different mission trip capacities. Our church has always been about caring and ministering to people; Anna has definitely assisted and led in that during the time she was here. I think Anna would work really well in missions and in working especially with teenagers and young adults. She is a great communicator, so I can definitely see her being a preacher or an evangelist. – Tirza
